

# .....Discover the Experience of a Lifetime

## Hear What Graduates of our Program Have To Say:

**Switzerland:** "I took an English course with ALP in Boston (15 – hours a week). I chose this type of course because I liked to learn English with a typical American family to see how they work together and how they live. I stayed in ALP for three months in the home of a lovely lady. In my free time when the lessons were over, I took a train to Boston and enjoyed that great city with all its shopping malls. Often, my teacher took me out with her students and I met a lot of interesting people. It was a very flexible program. The textbooks were great with a lot of different chapters to learn." - **David Burkart, Winterthur**

**Japan:** "Everything that I did and saw there was the first experience for me. To tell the truth, I wanted to go home during the first week. I didn't understand really what everyone said but it passed in a couple of days and then I felt comfortable – just like staying in my own home. All too soon I had to leave but I changed my plan and stayed a whole month longer with my teacher and her son! I think I changed for the positive and have a broader outlook than before – thanks to them!" - **Yuki Yoshida, Tokyo**

**France:** "I stayed three times with different families near Boston. Living with a family and having several hours of English lessons each day is a "5" (5 being top). It's a wonderful way to improve one's English painlessly and discover the real American life! During my third stay, I studied for the TOEFL Exam; I obtained a score of 577 out of 587! I recommend this method!" - **Benedicte Ghanassia, Paris**
